Top Skills

Artificial Intelligence (AI)
LangChain
Large Language Models (LLM)

Certifications

NDG Linux Essentials 2
Introduction to Cybersecurity
Amazon Elastic Compute Cloud (EC2)
Computer Forensics File Formats : AFF4

Honors-Awards

BTS Streak Finisher
STAR Award
STAR Award

Harishbabu Rengaraj

Linux | AI | Python | Robot | CI/CD
Chennai, Tamil Nadu, India

Summary

A Techsmith with a strong foundation in Unix and DOS-based operating systems, excelling in system administration, automation, and optimization.

Known for solving complex technical challenges and driving efficient workflows through innovative solutions.

Committed to continuous learning and contributing to impactful projects in the tech domain.

Experience

Zilogic Systems

4 years 8 months

Software Engineer - Lead Automation
January 2024 - Present (2 years 6 months)

- * Lead the Automation Team in designing and implementing automation frameworks for embedded systems, enhancing testing efficiency and coverage.

- * Develop and deploy AI automation agents for real-time data processing and decision-making.

- * Fine-tune pre-trained AI models to optimize performance for specific embedded applications.

- * Implement YOLO-based object detection solutions for embedded platforms, improving real-time image processing capabilities.

- * Design and develop custom Python libraries for frameworks such as robot-framework and AI Agents.

* Contribute to the development and enhancement of internal tools and libraries, promoting best practices and code reuse.

Systems Administrator - Linux

November 2021 - Present (4 years 8 months)

Chennai, Tamil Nadu, India

- Leading the efforts of Automation Team.
- Leading the efforts of IT Administration.

Aptiv

Automation Engineer - Consultant

February 2024 - January 2025 (1 year)

* Specialising in automating functionalities such as WiFi, Bluetooth, CAN and Ethernet using Python and RobotFramework.

Chegg India

Subject Matter Expert

October 2021 - February 2022 (5 months)

- Solved over 100+ queries with Python, Bash and Linux administration.
- Built a strong interest in programming.

The Residency

Systems Associate

March 2021 - November 2021 (9 months)

Chennai, Tamil Nadu, India

- Managed and maintained Microsoft Active Directory, ensuring seamless user authentication and authorization.
- Administered NAS servers, optimizing storage and data management.
- Spearheaded network and system administration, guaranteeing uptime and resolving issues promptly.
- Configured and secured WiFi networks, ensuring reliable connectivity.
- Set up and manage NVRs (Network Video Recorders), enhancing surveillance and security.

Satvat Infosol Pvt Ltd

Tech Support Trainee - Networking

May 2019 - April 2020 (1 year)

India

- Acquired foundational knowledge of Networking fundamentals, including network protocols and architecture.
- Gained a solid understanding of Operating Systems, including installation, configuration, and troubleshooting.
- Developed a strong interest in Linux, exploring its features, commands, and applications.

Education

Kings College of Engineering

Bachelor's degree, Electrical and Electronics Engineering · (August 2015 - April 2019)

Arunodhaya Higher Secondary School

Mathematics and Computer Science · (June 2013 - April 2015)
